Class 1

12kN Pile Fixing Kit

Product Disclosure Information Self-Assessment
Version: 240727

Product Name	Milsons 12kN Pile Fixing Kit
Product Identifier	PFKIT304-12KN

Declaration

Milsons 2012 Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product Description

The 12kN Pile Fixing Kit is an assortment of brackets and fasteners in Stainless Steel T304, to be used to connect anchor or braced piles. Each pack comes with installation guidelines and all the required fixing to achieve a 12kN load. One kit contains materials to fix four piles.

Scope of Use

Intended for residential or commercial use to connect timber piles in both anchor and brace situations. The product should only be used for its intended purpose. All subfloor construction must be in accordance with NZS 3604 2011. Suitable for fixing in a Zone D environment (refer to NZS 3604:2011 Table 4.1).

Conditions of Use

Intended for use as per NZS 3604, it is the responsibility of the user to follow guidelines on correct installation. Prior to goods being installed, they should be stored in a dry environment and free from damage. To facilitate your decision-making process, we recommend consulting our technical guides, available at the following web address: <https://milsons.co.nz/category/technical-resources>

Contribution to Building Code Clauses

Relevant Code Clauses	Contributions to Compliance
B1 Structure — B1.3.1, B1.3.2, B1.3.3 (b, d, e, f, g, h, j, q), B1.3.4	Compliance with B1 Structure is contingent upon the design crafted by the designated professional, such as a consulting structural engineer or architect.
B2 Durability — B2.3.1 (a)	The product is offered in Stainless Steel 304 grade. Compliance with B2 Durability is contingent upon the selection of the most appropriate coating or material, in accordance with the specific application. This decision should be based on the required durability for the intended use, taking into consideration the environmental conditions in which the product will be situated. This should be made by the designer.
F2 Hazardous building materials — F2.3.1	These products are safe when handled and do not contain or emit harmful materials. There are no requirements for this product in order to comply with Acceptable Solution F2/AS1, First Edition Amendment 3, 2017.
