# Cleats, Ceiling Ties, Girt Plate, & Multigrips

Product Disclosure Information Self-Assessment  
Version: 241023

Product Name	Milsons Concealed Purlin Cleats, Cleat Ceiling Ties, Multigrips, and Girt Plate
Product Identifier	CPC, CLCT, MG or GP (length*) (finish*) e.g. CPC40G Note: Stainless products display the grade before the width

## Declaration

Milsons 2012 Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

## Product Description

Milsons Cleats include Concealed Purlin Cleats, Cleat Ceiling Ties, Multigrips, and a Girt Plate. These products can be used in a variety of applications. Products are made from Galv Z275 material or Stainless Steel 304 with pre punched holes for use with nails or screws.

## Scope of Use

Intended for residential or commercial use to fix timber to timber. The Concealed Purlin Cleats are an L plate bracket typically used in the top plate/purlin/rafter. The Cleat Ceiling Ties are primarily used in ceiling joist to rafter or truss members. The girt plate is specifically designed for girt to pole fixing. Multigrips are brackets with tabs that can be bent to 90 degrees to suit the angle of the application.

## Conditions of Use

Intended for use as per NZS 3604, follow guidelines on correct installation. Prior to goods being installed, they should be stored in a dry environment and free from damage. To facilitate your decision-making process, we recommend consulting our technical guides, available at the following web address:

## Contribution to Building Code Clauses

Relevant Code Clauses	Contributions to Compliance
B1 Structure — B1.3.1, B1.3.2, B1.3.3 (b, d, e, f, g, h, j, q), B1.3.4	Compliance with B1 Structure is contingent upon the design crafted by the designated professional, such as a consulting structural engineer or architect.
B2 Durability — B2.3.1 (a)	The product is offered in Stainless Steel 304 grade and Galv Z275. Compliance with B2 Durability is contingent upon the selection of the most appropriate coating or material, in accordance with the specific application. This decision should be based on the required durability for the intended use, taking into consideration the environmental conditions in which the product will be situated. This should be made by the designer.
F2 Hazardous building materials — F2.3.1	These products are safe when handled and do not contain or emit harmful materials. There are no requirements for this product in order to comply with Acceptable Solution F2/AS1, First Edition Amendment 3, 2017.
